

BOX: FH Communications Modules

Completed: June 3, 2005

1. Measurement Modules
 - a. Measurements
2. Manufacturing Systems Knowledge Area
 - a. Measurements
 - b. Research Proposal
 - c. Research Proposal 2
 - d. Outline
3. Operations Management
 - a. Operations Management 1
 - b. Operations Management 2
4. Planning effective communication strategies
 - a. Planning effective communication strategies 1
 - b. Planning effective communication strategies 2
5. Module IV - Data Communications and Networking
 - a. Communications syllabus
 - b. Power point
6. Communications Modules
 - a. Communications – draft research proposal
 - b. Communications 2 – draft research proposal
7. Draft Proposals
 - a. Power point
 - b. Communications draft proposal 1
 - c. Communications draft proposal 2
8. Assignments and Case Studies
 - a. Assignments, case studies
9. Loose Papers
 - a. Module I – Fundamentals of Manufacturing systems design
 - b. Miscellaneous
 - c. Module 1
 - d. Module 2
 - e. Communications knowledge area - module 1
 - f. Process chart
 - g. Module 2 - analysis tools
 - h. Module 2 - Analysis tools – 2
 - i. Transparencies
 - j. Networking assignment
 - k. Module 3 - power point
 - l. Module 3 - power point 2
 - m. Networks power point 1
 - n. Networks power point 2
 - o. Networks power point 3

- q. Work measurement and time study power point
- r. Assignment, articles
- s. Course objectives
- t. Final exam
- u. Foundations in measurement syllabus
- v. Leteer, diagrams
- w. Miscellaneous 2
- x. Process planning power point 2
- y. Articles, miscellaneous
- z. Syllabus, quizzes, power points
- aa. Module 5
- bb. Financial and nonfinancial motivation power point
- cc. Job design
- dd. Organization design and support
- ee. Financial and nonfinancial motivation
- ff. The interactive communication process
- gg. Financial and nonfinancial motivation power point 2
- hh. Anatomy of a synchronous system
- ii. Articles, sources
- jj. Lean manufacturing
- 10. Jenna – Mod. 1
 - a. Power point
- 11. Lecture Notes
 - a. IE 342 computer integrated manufacturing
 - b. Module 1 - fundamentals of manufacturing systems design
- 12. Comm. - Module 1
 - a. Quiz, information
- 13. Comm – Module 2
 - a. Information Packet
 - b. Strategies for communication
 - c. Methods to communicate effectively
 - d. Articles
 - e. Methods of communication
 - f. Study guide and exercises
- 14. Network Diagrams
 - a. Diagrams
- 15. Machining Processes
 - a. Case study on pulleys for manufacturing systems
 - b. Syllabus, case studies
 - c. FOCUS Hope - case study
 - d. Machining process knowledge area development
 - e. Tec machining\
- 16. Comm. – Module 3
 - a. Miscellaneous papers, articles
 - b. Project proposals and technical reports

a. Audiovisual Aides and introduction to multimedia

18. TQM

a. Information
